

NSU Named One of the "Best Companies to Work For"

Bellevue, WA – July 2009 – National Specialty Underwriters, Inc. (NSU) was named by *Seattle Business Magazine* as one of Washington's 2009 Best Companies to Work For. This award honors companies that recognize employees are their greatest asset.

"We salute the Washington companies that are setting the standard for leadership in creating a positive work environment for employees in the areas of benefits, information sharing, training programs, and more," said John Kueber, the magazine's Associate Publisher.

Seattle Business Magazine chose 100 finalists in their search for Washington's Best Companies to Work For. Over 10,000 employees from nominated companies completed anonymous surveys regarding attributes such as leadership, communications, training, work environment, and corporate culture.

"This award acknowledges the outstanding contribution made by all of our employees", said Chris Randall, President & CEO, "but the most important aspect is knowing that our employees feel their work is rewarding and that NSU is a great place to come to work every day."
