

## **NSU NAMED ONE OF THE “BEST COMPANIES TO WORK FOR”**

Bellevue, WA (June 2010) – National Specialty Underwriters, Inc. (NSU) was named by Seattle Business magazine as one of Washington’s 2010 Best Companies to Work For. This award honors companies that recognize employees are their greatest asset.

“NSU’s inclusion as a Best Company to Work For is evidence of the company’s commitment to develop its human resources through improved communications, a cohesive culture and strong leadership, values that are core to developing a successful enterprise”, says Leslie Helm, editor of Seattle Business magazine.

Seattle Business magazine chose 100 finalists in their search for Washington’s Best Companies to Work For. Over 10,000 employees from nominated companies completed anonymous surveys regarding attributes such as leadership, communications, training, work environment, and corporate culture.

“This award acknowledges the outstanding contributions made by all of our employees, but the most important aspect is knowing that our employees feel their work is rewarding and that NSU is a great place to come to work every day,” said Chris Randall, President & CEO.
